Gentlemen:

Your letter of the 25th of September,
and bill for twenty-five dollars, have been
received. We do not desire to have you register
our cable code address. Most of our members
know this word, and we consider twenty-five dollars
excessive charge for such registration.

Yours truly,

THE AMERICAN NUMISMATIC SOCIETY

Secretary.

Gentlemen:-

The Official Card of Record attached shows the data of your firm as we have it. We wish to register this for you internationally so that others anywhere can avail themselves of it.

We make the telephone book to the cables. That is, the International Register bears much the same relation to cable addresses and the cables that the telephone book does to the telephone number and the telephone.

This is a function not performed by the cable companies but has always been left to the individual which has made necessary the "International Register." Seventy thousand firms are now so registered.

We make cable addresses practical by interpreting them as addresses or signatures.

As foreign business is important to you, and a cable address while a small item, is essential to foreign business you will want to be registered. This costs but \$25.00 per year. You also need that "cable address interpreter," the International Register. This costs \$15.00 additional per annum.

Just sign our Official Card and mark \$25.00 or \$40.00 after your name and return it to us making any correction of data that is necessary and we will give it our immediate attention.

Yours very truly,

TELEGRAPHIC CABLE AND RADIO REGISTRATIONS, INC.
